## About the Collector

The collection of the late John Luczkiw, recently acquired by the University of Toronto Library, reflects the life-long passion of its owner for book collecting.

Born in 1923 in Western Ukraine, Mr. Luczkiw pursued his early education under difficult circumstances complicated by several successive foreign occupations. Forced by the threat of Soviet invasion to emigrate to Germany, he studied engineering there and, in 1950, again emigrated--this time to Canada. He enrolled at the University of Toronto to complete his undergraduate studies and, in 1951, graduated with a B.A.Sc. in mechanical engineering. While still a student, he joined the Viceroy Manufacturing Company, a private Canadian firm, of which he eventually became executive vice-president.

His involvement in business did not, however, prevent him from pursuing his studies further and, in 1959, he was awarded an M.A.Sc. in nuclear engineering from the University, thus becoming one of the pioneers in the field in Canada.

Every moment of what little spare time he had was devoted to books. While still a student in Germany, he witnessed the establishment of the UNRRA camps for "Displaced Persons" (DPs)--i.e., those rendered homeless by the upheaval of World War II. Although he did not live in such a camp himself, he immediately developed close ties with the many fellow Ukrainian political refugees who did. He was impressed by their prodigious literary and publishing activity and was inspired to begin collecting all the materials he could find in order to preserve a record of their unique experience. When he came to Canada as an immigrant, the only possessions he brought with him were boxes full of these DP publications.

In Canada, he soon set about augmenting his collection with books, periodicals, even pamphlets and brochures that related to the period of the DP camps through book dealers and private individuals. His searches often led him far afield to various parts of the US, Europe, Argentina and Australia. His frequent trips on company business to cities such as Detroit, Chicago, New York, Boston, London and Munich, which also had sizeable Ukrainian emigre communities, allowed him to follow up a lead on a missing number of a serial publication or to make some new acquaintances among fellow bibliophiles. Even family vacations were planned to include a side-trip to an out-of-the-way collector. His daughter recalls a trip to Florida during which, "instead of the usual tourist spots, we visited musty garages lined with yellowing books and presided over by equally musty old book sellers."

If there is one feature that stands out about the Luczkiw Collection, it is the meticulous and loving care with which each and every book was collected, restored if necessary, and catalogued. Shelves containing the approximately 8,000-10,000 books in his possession lined several rooms and later even the garage of his home.

An extension of his passion for book collecting was his interest in bibliography. Among his numerous bibliographical works was a scrupulously annotated bibliography of all DP publications between the years 1945 and 1949, which was almost completed at his untimely death at the age of 51. This work is also part of the collection.

The University of Toronto was the natural choice to house the Luczkiw Collection. Not only has the University Library traditionally maintained a strong collection of Ukrainian materials, but Mr. Luczkiw, a long-time resident of Toronto, had always expressed the desire that the product of his efforts should ultimately find a place at the university of which he and his children (Maria, 1972 and George, 1978) were alumni, and it is through the efforts of his wife that this has been realized. The Luczkiw Collection is housed in the Thomas Fisher Rare Book Library and will help to make the University Library's Ukrainian holdings among the finest in Europe and North America.

## Introduction

Several explanatory notes are necessary to help the user of this bibliography.

Our primary purpose was to provide enough information on each entry to satisfy the requirements of library cataloguing, and to make the collection as accessible as possible to researchers.

To facilitate the location of a work, an alphabetical listing was made of approximately 1,600 entries, including serials. Monographs, pamphlets, and serials were then organized by subject (indicated in the table of contents). Each entry was given an accession number in keeping with the Thomas Fisher Rare Book Library cataloguing system.

In the description of serials, reference is sometimes made to the location of a serial at the Hoover Institution, Stanford University, as indicated in the List of Periodical Publications Published by Belorussian, Russian, and Ukrainian DP's; 1945-1951: Holdings of the Hoover Library (Stanford, California, n.d.), compiled by Helen Sworakowski. Further information on the location of serials can be found in Yuri Boshyk and Boris Balan, Political Refugees and "Displaced Persons," 1945-1954: A Selected Bibliography and Guide to Research with Special Reference to the Ukrainians (Canadian Institute of Ukrainian Studies, Research Report No. 2, Edmonton: CIUS, 1982), pp. 221-250.

For monographs and pamphlets, reference is occasionally made to "Buchynskyj." This refers to the book by Dmytro Buchynskyj, Biblioteca Nacional, Exposición de la obra impresa Ucraniana en la extranjero 1945-1955, Catalogo (Madrid: Dirección General de Archivos y Bibliotecas, 1956), and the page reference in that source. The researcher may also find it useful to consult the more recent work by Roman Petryshyn and Natalia Chomiak, Political Writings of Post-World War Two Ukrainian Emigres: Annotated Bibliography and Guide to Research (Canadian Institute of Ukrainian Studies, Research Report No. 4, Edmonton: CIUS, 1984), which provides annotations on some of the publications found in the Luczkiw Collection. An even more recent listing can be found in Volodymyr Maruniak, Ukrainska emigratsiia v Nimechchyni i Avstrii po Druhii svitovii viini (Munich: P. Belei, 1985), pp. 363-419.

The transliteration of Ukrainian and other East Slavic languages is based on the modified Library of Congress system (without ligatures and diacritics). In all cases we have tried to remain true to the original, even though it may not have been in keeping with present-day linguistic usage or orthography.

We have followed a bibliographic format that conforms with the American National Standard for Bibliographic References (ANSI) developed by representatives of library and other professional organizations. It is now used by such institutions as the Library of Congress and the National Academy of Sciences in the U.S. The ANSI standard differs from more "traditional" formats in a variety of ways: for example, readers will notice the absence of underlined titles, and that only the first letter of the first word and of all proper nouns are capitalized.

Finally, the John Luczkiw Collection also contains items published before 1945, some of which have been included here. In addition, Ukrainian Canadian publications, also collected by John Luczkiw, remain to be catalogued.

## Acknowledgements

We would like to thank the many people who helped in the preparation of this bibliography. Mary Stevens, Luba Pendzey, Andrew Gregorovich and Professor Maria Subtelny were not only encouraging but also enthusiastic participants. Professor Danylo Husar Struk offered valuable advice on the use of computer software, while Roma Yanchinska kindly prepared the subject cross-referencing system. Anna Luczka, Oksana Smerechuk, and Lubomyr Szuch inputted the final version of the manuscript.

The chief librarian at the University of Toronto, Marilyn Sharrow, was very supportive, as was the administrative staff, Maureen Hutchinson, Kathy Reffle and Mary Singh. The Library provided the computer and facilities for the project.

Richard Landon, head of the Thomas Fisher Rare Book Library, and Philip Oldfield were always encouraging and co-operative. We are especially thankful to Luba Hussel and Margery Pearson for their assistance and professionalism. The Canadian Institute of Ukrainian Studies at the University of Alberta provided a project grant, and Myroslav Yurkevich copy-edited the manuscript.

A special note of gratitude must be expressed to Mrs. Luczkiw and her family. They realized the importance of preserving and making available the publications of a generation that lived through the difficult aftermath of World War II. The late John Luczkiw was an outstanding collector of these publications, and his dedication and perseverance are reflected in the richness and scope of his collection.

Dr. Yury Boshyk and Dr. Włodimierz Kiebalo  
December 1988
